

A Lion Among Wolves

By Ronaldo Gilley

He was born in a world

Where innocence is lost by boys and girls

At a young age

And after that, the only thing they have left is young rage

Trying to find an exit off this road, but it's a one-way

And sidewalk executives settle disputes with gunplay

Wasted potential and talent is what he fears

But with every step he takes to step aside, he feels his fate drawing near

Running fast, but demons are drawing close and approaching from the rear

He's a lion running with wolves, so does he even belong here?
